PROJECTS

Optimizing Agricultural production :
- This Project focuses on building a predictive model so as to suggest the most suitable crops to grow, based on the nature of soil and the given climatic conditions like temperature, humidity etc. https://github.com/mohitkg01/Optimizing-Agricultural-Production

IPL 2022 Auction:
- I have done analysis on IPL Auction 2022 Dataset on MySql.
- I have written some query .With the help of queries we can get no of sold players, most experienced player ,most expensive player etc. https://github.com/mohitkg01/anlysis-on-ipl-aunction2022

ACHIEVEMENTS

2nd Position in SMDC Robotics Event
It is event occur in our college by Robotics club
